Investigator Spells Out How Saudis Helped Jimmy

WASHINGTON — When Jimmy Carter was president, several of his top officials were accused of accepting kickbacks from Saudi Arabia. These officials included Secretaries of State, Defense, and Treasury, as well as the CIA director. The recent investigation revealed that the Saudis provided the government with information about their oil reserves and helped fund the war in Vietnam. The investigation also found that the Saudis had been involved in numerous illegal activities, including drug trafficking and money laundering. The investigation was led by the special counsel Robert Mueller, who was appointed to investigate Russian interference in the 2016 election. The investigation has been ongoing since 2017 and has resulted in several indictments and convictions. The investigation is expected to continue for several more months.

High tars take back seat to MERIT technology in tests comparing taste and tar levels.

There's a low tar cigarette that's challenging high tar smoking—and winning. The cigarette: MERIT. High Tars Finish Second

Latest research proves smokers prefer MERIT. Blind Taste Tests: In tests where brand identity was concealed, a significant majority of smokers rated the taste of low tar MERIT as good as—or better than—leading high tar brands. Even cigarettes having twice the tar!

Smoker Preference: Among the 95% of smokers stating a preference, the MERIT low tar/good taste combination was favored 3 to 1 over high tar leaders when tar levels were revealed!

Long-Term Satisfaction: In the latest survey of former high tar smokers who have switched to MERIT, 9 out of 10 reported they continue to enjoy smoking, are glad they switched, and support MERIT as the best-tasting low tar they've ever tried! MERIT is the proven alternative to high tar smoking. And you can taste it.
