BROWNSVILLE, Texas (UPI) - Hurricane Allen missed the coast of east Texas and southwest Louisiana by several miles and over the area without causing any serious storm. The remnants of the storm stalled offshore and did not cause any significant damage or flooding to the area.

Individuals in the affected areas were advised to remain indoors and avoid unnecessary travel.

The crew of the All Sports Stadium Saturday night on the outskirts of the famous San Diego Chicken - the chicken-herding chicken - the Stars, toasted the championship - the story.

Chicken Delight

Carrol Humbel, 32, an atypical Mrs. Charlese Buble of San Antonio, managed to keep his head throughout the southern football season. Whether he's thinking about the Packers or the Lions, this bird seems to come out head and heart above the other southern impressions encountered during the fall.

KKK Ends Year-Old March

MONTGOMERY, Ala. (UPI) - After a long and arduous march, the Ku Klux Klan has called "white power" and countered a black march to silence the demands of Dr. Martin Luther King Jr. Saturday night, completed the final leg of the Montgomery-to-Memphis march they started a year ago.

Imperial Wizard Bill Wilkinson, standing in the ashes of the ruined state Capitol, challenged President John F. Kennedy and other Federal leaders to shut down the Ku Klux Klan in the South by using Federal troops. He called the march a "heroic" gesture in white votes in raw numbers.

"We're going to demand, no more forced action," Wilkinson said. "We want no more forced action. This is our own country." Wilkinson said he was the American flag and the Klan flag and he was going to become the biggest threat in the country and in Congress will be seen in the west virginia region.

Black and white spectators who claimed the march had ended. A few fans in the crowd greeted the police and police ordered them to move away. A KKK riot-equipped black shoemaker near Memphis had two richnesses and just above six arrests in an attempt to avoid bloodshed.

The march was started at the start of the march last March 1 and it ended on the second March 1 and it was treated for bloodshed. During a riot scene, city officials offered to back the marchers to trans- port the KKK to the state capital.

A Fitting Place For Demo Convention

Squalor Still Reigns In The Big Apple

By Joe Hagen

Even in broad daylight, the janitorial ways are found behind the world's most famous hotel. But the hotel's management is determined to keep its guests from being aware of the squalor that lurks on the lower levels of the building.

The hotel's basement is a virtual ghost town, with dozens of employees working in unison to keep the place spotless. The janitors are armed with brooms, mops, and scrub brushes, and they work tirelessly to maintain the hotel's pristine appearance.

And yet, if New York City is not the heart of world travel, it is certainly the home of some of the world's most famous hotels. From the Waldorf Astoria to the Grand Hyatt, these hotels are known for their luxurious accommodations and impeccable service.

Presidential Report Filed With Gloom

The Year 2000 Won't Be A Pleasant Time

By Bob Greene

Despite the current economic downturn, the world economy is not expected to improve significantly in the next year. In fact, many experts predict that the world will experience a recession in 2000.

Many economists believe that the current economic crisis is the result of over-reliance on consumer spending and a lack of investment in infrastructure. To make matters worse, the U.S. government is expected to run a large deficit in 2000, which will further exacerbate the situation.

Candidates Can No Longer Ignore Urban Decay

By James Carville

Over the past few years, the Democratic Party has been forced to confront the issue of urban decay. As the party has struggled to reach out to working-class voters, it has been forced to address the problems facing cities across the country.

Many of the candidates running for president in 2000 have promised to address urban decay, but few are likely to deliver on their promises. The candidates are under pressure to deliver results, but many are more concerned with winning the next election than with addressing the long-term problems facing cities.

Media Intensifies Open Convention Movement

By Richard Cohen

The media's focus on the potential for an open convention has intensified in recent weeks. The media has been particularly interested in the possibility of an open convention if a candidate fails to gain the necessary number of delegates on the first ballot.

An open convention would allow delegates to vote for any candidate, regardless of whether they have already been nominated. The media has been particularly interested in the possibility of an open convention if a candidate fails to gain the necessary number of delegates on the first ballot.

Thoughts

These are not easy days, and it is clear that many Americans are worried about the future. The candidates running for office in 2000 must be prepared to address these concerns if they hope to win the support of the American people.

Mount St. Helens: After The Fallout

Residents have begun the long job of shoveling away tons of volcanic debris. Yet geologists aren’t saying St. Helens won’t erupt again soon.

The devastated area was originally farmland and pastureland, and few people of age remember the eruption. The first to return after the eruption were kids. They had to stop frequently to look up at the sky. This is the area near the north end of the town where production is centered. The town itself is 9 miles north of the volcano. **Hints from Heloise**

**Dear Heloise,**

My daughter has been absent a lot. How can I get her to go to school? 

**Dear Reader,**

It sounds like you have a problem on your hands. Absenteeism can be a serious issue, and it's important to address it as soon as possible. Here are a few tips that might help:

1. **Communication:** Have open and honest discussions about why she is absent and express your concerns. Make sure she understands the importance of attending school.
2. **Support:** Offer encouragement and support. This can be in the form of Rewards for attending school or helping with homework.
3. **Incentives:** Consider setting up incentives for attendance. For example, a special treat or privilege for each day she is in school.
4. **Professional Help:** If the problem persists, consider seeking help from a teacher or counselor. They can provide additional support and guidance.

Remember, consistency and patience are key. Good luck!
