American Airlines Expects More Cuts

TULSA (UPI) — American Airlines officials said Friday they expect even more employees—in addition to the 3,000 already announced—will be cut in the company’s efforts to trim operating costs.

R.M. Haney, manager of the Will Rogers World Airport in Oklahoma City, said he has been told by American Airlines that as many as 45 employees will be laid off. In addition, 26 other employees have been notified that their jobs will be eliminated.

Kansas City (AP) — American Airlines said Friday it will cut 3,000 more jobs, or about 13 percent of the workforce, as it continues efforts to reduce costs following a major profit warning.

The cuts will affect the airline's operations in the Kansas City area, as well as in other cities where American has a significant presence, including Dallas-Fort Worth, Chicago, and Los Angeles.

Mike Paxton, a spokesman for American Airlines, said the cuts were necessary due to the ongoing economic downturn and the company's efforts to improve its financial performance.

The cuts will be implemented over the next several weeks, and will affect both exempt and non-exempt employees. The company anticipates the majority of the cuts will be made through attrition, with some employees choosing to take early retirement or voluntary buyouts.

Paxton said the airline is committed to maintaining its focus on customer service and safety, even as it works to reduce costs and improve its financial situation.

The cuts are part of a broader plan by American Airlines to reduce its workforce by 10 percent over the next five years. The airline has already announced plans to cut 4,500 jobs since the start of the year.

The cuts come as the airline industry continues to grapple with the impact of the COVID-19 pandemic, which has caused a severe drop in travel demand and forced airlines to大幅 reduce their operations.

Despite the challenges, American Airlines has reported a rebound in recent months, with passenger traffic and revenue improving as vaccination rates increase and travel restrictions ease. However, the airline has cautioned that future developments remain uncertain.

Paxton said the company is committed to being transparent with its employees and stakeholders about the cuts, and is offering various support programs to help affected workers.

The cuts are likely to have a significant impact on the airline's workforce and local economies, where American Airlines has a large presence. The company has several major hubs and facilities in cities such as Dallas, Chicago, and Los Angeles, and employs thousands of people in those areas.

The airline has been working to reduce costs and improve its financial performance in recent years, following a period of significant losses caused by the high costs of fuel and competition from low-cost carriers. The cuts are part of a broader plan to瘦身 its operations and become more competitive.

1981 U.S. Refugee Quota Set

WASHINGTON (AP) — The Reagan administration has set a quota for the number of refugees who can enter the United States next year, after months of debate over immigration policy.

The quota, announced by Secretary of State George Shultz, is 1,500 overall, with 1,400 from Latin America and 100 from Europe. It is lower than the previous year's quota of 2,000, reflecting a tightening of immigration policies.

Shultz said the decision was made after careful consideration of the need to balance humanitarian concerns with the country's ability to absorb refugees.

Yet Another Marilyn Flick

HOLLYWOOD (AP) — It's the tale of a movie star who arguably made a film in a day, but another Marilyn imitation.

Okahtee, Oklahoma...and another Marilyn imitation. The film, titled "Marilyn's Revenge," has been denied a release date by a major theater chain, claiming it is not a sufficient "Marlaine" effort.

"Marilyn's Revenge" has been in the works for several years, and has been said to be a "Marilyn" tribute.

"It's not a Marilyn film, it's a Marilyn imitation," said the director of the film. "I wanted to make a film that was like a Marilyn film, but not a Marilyn film."

The film is expected to be released sometime next year, but the exact date is still under wraps.

"Marilyn's Revenge" is the latest in a long line of "Marilyn" imitations, following films such as "Marilyn Monroe: Remembered," "Marilyn Monroe: The Girl," and "Marilyn Monroe: The Legend of the Starlet."

Loosening Paper Plates

DEAR HELoise: Don't you ever have trouble with paper plates that seem to stick together as you try to serve a helping? Or maybe they don't stay flat when you're trying to use them?

DEAR READER: I do have an answer. Instead of just piling one on top of another, try placing an index card between each plate. And when you're done using them, you can put the index card back in your desk drawer and have it ready for the next time you need it.
